### Comments received

Excellent PC report, brilliant meeting and great community spirit

Thought I'd be bored but it was well organised and brilliant answers to difficult questions – top marks especially John Hargis

Better advertised so bigger attendance

My first attendance at a public parish meeting and not the last, can't think of any improvements

Well organised and very interesting

No mention has been made of pleasant small properties being built to encourage downsizing thereby releasing larger properties for growing families

Wrong date on website, didn't receive an annual report, the style and inclusivity of these annual meetings have greatly improved

The quantity surveyor presentation was irrelevant we wanted to hear details of timescales etc.

Other presentations were excellent

Annual report delivered to the door was very good

Lucy excellent, expert and approachable speaker, John Hargis very good clear presentation and content

It would be nice if all Councillors stood up when answering questions, apart from making them more visible from the back it would make them look as if they own the subject and are proud of it

We thought the presentations by the three speakers were excellent, very high standard especially John Hargis and Lucy Lambert, very well run meeting
