

Community Facilities Committee
Report to Council January 2021

Report from Sports Association: Cricket Club and Bowls Club remain closed. The work at the cricket club is progressing. Wellesbourne Wanderers are back training.

Budget: the committee looked at its current budget and the proposed budget for 21/22 and in light of monies available trimmed the budget. Monies are able to be vired from reserves.

Dog Close: the lease is moving forward albeit slowly. The topographical survey has been commissioned and will be done in January.

Invitation to tender adverts are going out in January for the removal of the youth hut and the creation of a car park.

The tenders for new play equipment for the Mountford play area were studied and the decision taken. Playdale will supply two pieces of equipment. I met with their representative today to talk about the siting of the pieces.

The recent play inspections by RoSPA were studied and the required work has been agreed.

Council had received a response regarding landscaping on developments from SDC. SDC are following up the issues raised on Ettington Park and The Grange. With the problems with management companies across the district, SDC has amended their policy to keep control at the district or parish level.

Christmas lights: this had gone well and had been well received. Problems with some lights staying on longer than expected are being followed up.

Anne Prior
Chairman.
